## NetterVibration

## 33

## Frequency and Voltage Converters Series FSW

- Robust and approved design
- Performance suitable to sites
- Long lifetime
- IP 54 isolation specification F
- Primary: 400 V, 50 Hz
- Secondary: optional 42 V, 200 Hz or 250 V, 200 Hz
- Two-wheel cart from FSW 7,5

* Designed for simultaneous operation of the indicated number of vibrators.

## Applications

Frequency and voltage converters series FSW convert the local main voltage into protection voltage.
They are particularly suitable for the operation of Netter internal vibrators series NCZ, NCZ/S, NCX and NCX/S as well as external vibrators series NEG/NEH.
The frequency and voltage converters are available with 42 V or 250 V secondary voltage. FSW converters are equipped with the maximum possible number of CEE (32 A) power sockets.
The required power performance is determined by the internal vibrators to be connected.
A thermal motor protection switch shuts the unit off when current consumption levels are too high.

## Safety

Personal safety is assured by means of galvanic isolation.

Permissible operating conditions
Connecting values:
FSW 2 to FSW 45: primary $400 \mathrm{~V}, 50 \mathrm{~Hz}$, secondary $42 \mathrm{~V}, 200 \mathrm{~Hz}$

Ambient temperature:
$0^{\circ} \mathrm{C}$ to $40^{\circ} \mathrm{C}$.

Netter provides solutions. Consult our experienced application technicians.
